THE SCHOOL OF TWO HEARTS

difference

Our Mission

At *The School of Two Hearts*, we want to ensure students get a quality education where they can feel competent, know they are loved, have a sense of purpose, and learn about our beautiful Catholic faith.

Our Vision

If one's self-concept develops and grows in the context of loving God and serving others, we will have a ripple effect throughout our world. Every child will be a light – a beacon who can impact others as they were impacted.

Words from the Heart: Parent Testimonials

My family and I have enjoyed our first year at The Two Hearts Co-Op for a variety of reasons. My children are able to enjoy engaging, educational content while I take a break from homeschooling them during the week. They are also challenged spiritually which helps cultivate rich and important dialogues about faith. The boys are exposed to church history and holidays which has given them a greater appreciation for the legacy of faith they are apart of. They also enjoy the rhythms and expectations of a school environment with the support of kind and thoughtful teachers. As the director, Mrs. Suchyna does her utmost to cultivate a culture of safety, responsibility, accountability and fun!

- Colleen, parent of students in Grades K, 5 & 9

We love The School of Two Hearts! It has been the best opportunity for my boys. As a business owner and working mother who homeschools two busy boys, The School of Two Hearts has been such a blessing, a huge help! My boys have learned so much in their curriculum-based class days as well as the extra "real life" classes. They love baking and photography classes. The boys have also attended church two days each week where they have learned the Bible and their prayers. We will forever be part of The School of Two Hearts.

- Colby, parent of students in Grades 1 & 3

My daughter had attended public school her whole life. We transitioned to homeschool part way through her year in sixth grade and we couldn't be happier! I am so grateful for the help and support The School of Two Hearts gave to us during that transition. My child is so much happier and there is a new joy in her now that she is attending The School of Two Hearts. She has grown academically and spiritually and enjoys that her faith is integrated into her day. I am forever grateful for this co-op. My daughter says making the transition was the hardest but best decision she has ever made.

- Katie, parent of Grade 6 student

My husband and I drop off our grandson two days a week to attend The School of Two Hearts' new Little Hearts Program. We are so pleased with this program! Our grandson is always eager to go! He is making new friends his age and asking about playdates with his classmates. He loves learning and comes home with new songs to sing to us. The "hands-on" approach has been great for him. Also, after attending only 3 days, we observed changes in him at home; he was calmer and seemed more independent. I would enthusiastically recommend The Little Hearts Program to parents! Little Hearts provides the opportunity for young children to grow in their faith, and establish new friendships while learning some basic academic readiness skills.

- Debbie, grandparent of Little Hearts student
